FROM THE DESK OF

QBIK HEALTHCARE

My Dear Reader,

Muje Maaf krna Sare!

Hum Qbik Healthcare ki taraf se ek dil se maafi maangte hain... par yeh maafi thodi alag hai! 😊 Kyunki jaha-jaha humara product gaya, waha kamaal ho gaya – sales badhi, profits double hue, aur stockists ke paas rest lene ka time hi nahi bacha! Repeat orders itne aane lage ki phone kab band hua, pata hi nahi chalta. 😊

Aur isi liye hum maafi maangte hain – kyunki humne aapka aaram chheen liya aur uski jagah bhar di growth, profits, aur repeat business se! 🙏 Hum un brands se bhi maafi maangte hain jinhone pehle market sambhali thi, par ab customers sirf ek hi naam lete hain – Qbik Healthcare! Kyunki jaha ek baar Qbik ka product chala jata hai, waha doosre products ki demand khatam ho jaati hai.

Yeh sab aapke trust, hard work, aur humare innovative products ka result hai. Humara mission simple hai – har partner ka business itna strong banana ki wo apne area ka leader ban jaye. Hum har din naye ideas, better formulations, aur resultative products ke saath market mein competition se aage rehne ke liye committed hain.

Agar aap bhi chahte ho ki customers khud phone karke bolein – “Sir, wahi Qbik wala product bhejna!” – to yeh sahi waqt hai humare saath judne ka. Kyunki Qbik Healthcare ke saath sirf product nahi chalta, poora business chal padta hai! 🚀

She Soul Disposable Period Panty

Say Bye Bye to Traditional Pads &
Get your Comfort With Period Panties

Feminine Care Division Under Qbik Healthcare

She Soul Disposable Period Panties. Hai Kya?

It looks like normal underwear, but inside it has a built-in pad.

But made with special material which give them comfort and leakage protection more than traditional pads.

- **"Disposable"** means – **use once & throw**, like tissue paper. No need to wash and reuse.
- It can **absorb period blood** and keep it from leaking onto clothes.
- It's made to be **comfortable, soft, and rash-free**, so girls can move, play, or sleep easily.

Now, instead of using a pad or tampon, this panty itself can absorb the blood – it's like a pad and underwear combined into one.
